TIMEFRAME:

New Course proposals must be submitted in time for the February AP&P meetings to take effect the following Fall semester.

New Programs - *Request to Plan* can be submitted to GA without AP&P approval. Once approved by AP&P, *Request to Establish* can be submitted to GA.

Program Changes require GA and SACS approval/notification. SACS only meets twice a year (December and July) so timing of submissions can affect the implementation date even if the proposal is approved by the February AP&P catalog deadline date.

Total time to implementation could be 6-24 months depending on which approvals are required and the possible request for changes and/or additional information from councils, GA or SACS.
