Proposals from the Department of Anthropology were approved as follows: (EFFECTIVE: Fall 2017)

U_CAS_ANT_2016_01 Course Addition:
ANT 4270. Arts of Resistance (3).F.Alternate years.
This course introduces students to social science and humanities literature on state power, surveillance technologies, and police and military institutions, while also examining the strategies and creative practices of communities and individuals that resist the tyranny of the state and envision alternative political futures and radically different configurations of power and social life. We will look at the work of (a) anthropologists and political theorists addressing contemporary global crises of population displacement, economic upheaval, and environmental change, (b) thinkers who shaped human rights law and humanitarianism during the 20th century, and (c) a field of anthropological theory that reacts creatively to crisis-management of the state, which we call "anarchist anthropology". Students who have previously received credit for ANT 4271 may not enroll in or receive credit for ANT 4270.

U_CAS_ANT_2016_02 Course Addition:
ANT 3645. Anthropology of Violence (3).S.Alternate years.
This course introduces students to the study of violence through anthropological perspectives, beginning in early human communities with the institutional of ritual sacrifice, and across history as we consider the place of violence in tribal societies, acts of terror deployed during the colonial encounter, the violence of the state, and the philosophical writings of thinkers who challenge us to consider that violence produces within us feelings of both attraction and repulsion, that violence and death are fundamental to sexuality in the modern West, and that understanding violence means we grasp senseless violence and cruelty, as much as that part of violence which breathes vitality into human worlds, invigorating communities rather than obliterating them.

U_CAS_ANT_2016_03 Course Addition:
ANT 3655. Anthropology of Immigration (3).S.Alternate years.
This course introduces students to readings in the social sciences and humanities that focus on marginalized or displaced communities of the contemporary world, whose lives are uprooted by military and political conflict, economic crisis, environmental degradation, impacts of climate change, and other forces that turn persons into the categories of "migrant", "refugee", and "alien" familiar to international law and twentieth century history, but seemingly intensified in recent years as human populations continue to expand. This course will look not only at the way that worlds are dismantled, but how people rebuild them, find meaning and solidarity, and create new communities for the next generation whose lives will be forever altered.

U_CAS_ANT_2016_04 Course Addition:
ANT 2440. From Savages to Cyborgs (3).S.Alternate years.
This course is about monsters, and how monstrosity blends together realms that should be kept separate – such as nature/culture, human/animal, male/female, material/immaterial, and self/other. The very beginnings of anthropology can be traced to the impetus for discovery of otherness, in an unyielding attempt to find, know and subdue others. Despite the Enlightenment project to classify and thus distance the perceived threat of the “savage-primitive”, the figure of the monster shape shifts. People who are cast as less than human – savages, gang members, criminals, terrorists, post-human cyborgs, people with AIDS – embody the nexus of debates about causality and cure. In this course, we pursue the monster as it is imagined and emerges through the medium of film - from early ethnographic films of the 20th century, documentary films on outcast figures, and popular film.
Course Addition:
**ANT 3820. Anthropology of Media (3).F. Alternate years.**
In this course, we consider from an anthropological perspective the nature and force of mass media in cultural life. The anthropology of media can be understood as a natural history of the human senses in relation to science and technology, while additionally considering these shifts in connection to social and political phenomena. As we map this particular history of the senses primarily through ethnographies and other literary forms, we want to keep in mind these questions: (1) What structural, psychic, and social forms of life are made possible by the technologization, and more recently, the electronification of communication in various milieus? (2) How does the materiality of media itself transform the human experience of space-time? (3) What is the role of media in the production of difference and understandings of the self? This is a theory-driven course with a lab component, where students will be asked to explore philosophical questions through multimedia projects produced in the Ethnography Lab.

Course Addition:
**ANT 4275. Experimental Ethnography (3).S. Alternate years.**
This course offers a theoretical, historical, and practice-based forum for understanding how anthropologists have translated the fieldwork experience into text, but also images, sound, theater, performance, and other non-traditional forms. “Ethnography” has always been an experimental arena wherein anthropologists work out what to do with the material gathered during the prolonged encounter that is long-term fieldwork. This course works with an expansive horizon of theoretical trajectories and multimedia practices considered “experimental” within the domain of social sciences with special attention to currents in anthropology’s intersection with art, underground subcultures, and revolutionary movements. This is a theory-driven course where students who have developed projects with faculty across the subfields in Anthropology will be given the opportunity produce new media projects in the Ethnography Lab. Students who have previously received credit for ANT 4276 may not enroll in or receive credit for ANT 4275.

Course Addition:

Responding to global flows of capital, people, goods, and ideas, many rural communities across Africa now find themselves struggling to define and preserve expressions of heritage such as customs, crafts, language, landmarks, sacred spaces, ancestral places, and so forth. And yet when heritage becomes equated with "tradition" in popular and political discourse, we may risk silencing deeper histories of global entanglement—the rise and fall of precolonial states, the Atlantic slave trade, religious conversion, and colonial empire—over the past few centuries.

Admission into Majors in the Department of Art

The following degree programs require a candidacy portfolio review: BFA in Studio Art, BFA in Graphic Design and BFA in Art Education (K-12).

The following degree programs do not require a candidacy portfolio review: BA in Art and Visual Culture with concentrations in Art History, Studio Art or Art Management, BS in Commercial Photography and BS in Graphic Arts and Imaging Technology

The Department of Art seeks to enroll the most capable and motivated young artists and designers in its degree programs. Admission is limited and highly competitive. The candidacy portfolio review indicates the student’s preparedness for entry into the department’s rigorous and demanding studio-based curricula. It shows the applicant’s aptitude for visual expression and demonstrates technical skills that have been acquired in art and design.

Newly admitted freshmen and transfer students are strongly advised to attend the Department of Art meeting scheduled during freshmen and transfer orientation sessions where additional important information is given to all prospective art majors.

CANDIDACY PORTFOLIO REVIEW FOR THE BFA GRAPHIC DESIGN, BFA STUDIO ART, and BFA ART EDUCATION degree programs: Students seeking to major in any of these degree programs must submit their work to the candidacy portfolio review. This review usually occurs during a student’s third semester at Appalachian (possibly earlier for transfer students). Details for portfolio submission to these degree programs are available on the Art Department website.

Students intending to major in Graphic Design must complete ART 1001, ART 1002, ART 1003; ART 1102, ART 2102; and either ART 2030 or ART 2130 before submitting to the BFA Graphic Design candidacy portfolio review.

Students intending to major in Studio Art must complete ART 1001, ART 1002, ART 1003; ART 1005, one 2000 level studio art class; and either ART 2030 or ART 2130 before submitting to the BFA Studio Art candidacy portfolio review.

Students intending to major in Art Education must complete ART 1001, ART 1002, ART 1003; ART 2222; one 2000 level studio art class; and either ART 2030 or ART 2130 before submitting to the BFA Art Education candidacy portfolio review.

Students seeking the BFA degree in Graphic Design, the BFA degree in Studio Art or the BFA degree in Art Education must pass the candidacy portfolio review before taking any 3000 or 4000 level studio course.

Declared Art and Visual Culture Majors who have completed ART 1001, ART 1002, ART 1003 and any additional studio art course pre-requisites are permitted to take 3000 and 4000 level studio classes without having passed a candidacy portfolio review.

Studio Art Minors who have completed 6 sh of either ART 1001, ART 1002 or ART 1003 and the appropriate 2000 level studio art class may receive permission of the instructor to take any 3000 level studio class.

Students who do not pass the BFA Studio Art, BFA Graphic Design or BFA Art Education portfolio review may use their earned credits as electives or as requirements towards another major or minor in the Art Department. Students may also repeat courses and/or continue to take 2000 level studio courses and then re-submit their work one time only to the candidacy portfolio review. The candidacy portfolio review takes place on Reading Day at the end of the fall and spring semesters.
EQUIPMENT REQUIREMENTS for Art Department degree programs can be found on the Art Department website.

Students majoring in art must make a minimum grade of “C” (2.0) except Commercial Photography majors who must have a grade of “C+” (2.3) in each required major course. Courses stipulated as prerequisites for subsequent major courses must be successfully completed with a grade of “C” or higher (C+ for Commercial Photography majors) before continuing to the next level of course work.
