Dr. Dru Henson presented the proposals from the College of Arts and Sciences for the Department of Anthropology, the Appalachian Studies Program, the Department of Biology, the Department of English, and the Department of Languages, Literatures, and Cultures.

The proposals from the Department of Anthropology were approved as follows: (EFFECTIVE: FALL 2014)

CAS_ANT_2013_49 Change the course description for ANT 4230, ANT 4320, ANT 4330, ANT 4350, and ANT 4400 to make clear that capstone students may not receive credit for the seminar version of the course. Correct a typo on ANT 4400 course title and description.

ANT 4230. Magic and Modernity (3).S.
Modernity is often characterized by a constellation of features such as rationality, objectivity, linear time, bureaucracy, and progress. Anthropology arose as a discipline of modernity. Yet many of the worlds that anthropologists study are enchanted worlds where the dead speak, ghosts act, and magic works. This seminar analyzes what happens when modernity meets such enchanted modes of human existence and explores how anthropology might grapple with the problem of using rational methods to understand magical worlds. Students who have previously received credit for ANT 4231 may not enroll in or receive credit for ANT 4230.

ANT 4320. Human Evolution (3).S.Alternate years.
This course is a comprehensive survey of hominin evolution. The archaeological and fossil record from the past 8 million years will be examined in detail, including paleoclimate research or, "stones and bones." In addition to studying the evidence for evolution, students will develop critical thinking skills about research paradigms, design, methodology, and interpretive frameworks. Lab exercises will allow students to examine fossil casts using a systems approach that considers structural-functional relationships, competing pressures in evolution, and even misapplication of evolutionary theory. After participating in this course, students will have learned basic human evolutionary anatomy and will also be familiar with key theoretical issues and debates in paleoanthropology. Prerequisite: ANT 2230. Students who have previously received credit for ANT 4321 may not enroll in or receive credit for ANT 4230.

ANT 4330. Bioarchaeology (3).S.Alternate years.
Bioarchaeology is the holistic, interdisciplinary, and epidemiological analysis of human skeletal remains from archaeological contexts. In this course, we will survey topics including age and sex estimation, paleo-demography, biocultural stress markers, pathology and trauma, levels of physical activity and evidence for habitual behavior, and paleodietary analyses. Beyond learning methods of bioarchaeology, students will be given the opportunity to understand the
development of interpretive frameworks from evolutionary and biocultural theory. These frameworks will be examined critically and applied to case studies from human populations in different geographical and temporal contexts. (MULTICULTURAL; NUMERICAL DATA) (ND Prerequisite: passing the math placement test or successful completion of MAT 0010.) Students who have previously received credit for ANT 4331 may not enroll in or receive credit for ANT 4330.

ANT 4350. Human Reproduction from an Evolutionary Perspective (3).S. Alternate years.
This course will examine human reproduction from an evolutionary perspective. We will discuss topics ranging from the origins of sexual reproduction to human fertility and sexuality and the biological, social, and political implications of childbirth practices, assisted reproduction, and parental care. In the course, students will become familiar with the anatomy and physiology of the human reproductive system and the biological and cultural processes that regulate reproduction in humans, and students will learn to critically evaluate representations of sexual selection, human sexuality, and parenting behavior. Students who have previously received credit for ANT 4351 may not enroll in or receive credit for ANT 4350.

ANT 4400. Paleolithic Archaeology (3).S.
A detailed examination of the Paleolithic from a paleoanthropological perspective. The archaeological record (sites, tools, fauna, and geology), methods, and theories for the evolution of our ancestors are explored, as well as competing models concerning extinctions. Students will learn of the evidence for such major events in the Paleolithic such as the organization of technologies, the demise of the Neandertals, competing explanations for cave art, the evolution of human consciousness, and the emergence of “culture as we know it.” Special attention is given to the inferential methods employed to interpret the archaeological record of the Paleolithic. Prerequisites: ANT 2215, ANT 2221, and ANT 2230. Students who have previously received credit for ANT 4401 may not enroll in or receive credit for ANT 4400.

Dr. Mike Mayfield presented a proposal from the Dean’s Council.

The proposal from the Dean’s Council was approved as follows:  (EFFECTIVE: FALL 2014)

**DeansCouncil_2013_7**
Establish a campus-wide policy to limit the number of undergraduate independent studies that a faculty member may supervise during any semester.

**Proposed ASU Policy**
All independent studies must be approved by the chair and the dean. No faculty member may supervise more than three undergraduate independent studies during a term (Fall, Spring, Summer 1, or Summer 2). Individual colleges may have more restrictive limits in their policies but may not allow more than three independent studies per faculty member per semester as standard practice.

Under extraordinary circumstances it may be desirable to allow a faculty member to teach more than three independent studies. Such exceptions will be granted only with the express approval of the chair and the dean and the reasons for the exception must be documented in writing. Those exceptions are to be reported to Academic Affairs and records of all approvals are to be kept in the college or department offices.

Proposals from the Department **Leadership and Educational Studies** were approved as follows:

**(EFFECTIVE: FALL 2014)**

**COE_LES_LIB_2013_1**

**Course Addition:**

LIB 5042. Strategic Administration of Library Resources and Services (3). On Demand.

Management theory and managerial functions are investigated and applied to the library setting. The history, mission, philosophy and objectives of libraries are explored, and topics including standards and competencies, personnel, facilities, resources, budgeting, public relations, planning, programming, and evaluation are examined.

Revise the program of study for the Master of Library Sciences (465*/25.0101) to add LIB 5042.

**COE_LES_LIB_2013_2**

Revise the program of study for the Master of Library Sciences (465*/25.0101) changing it from a degree with concentrations to a degree without concentrations (465A/25.0101). The program of study to read as follows:

- Delete the Concentration in Public Libraries (465C)
- Delete the Concentration in School Libraries (465B)[T]
- Remove the “Completion entitles…” statement
- Change the Admission Requirements

**Admission Requirements**: Baccalaureate degree from an accredited college or university; [complete application to the Graduate School](#); official general GRE or MAT exam scores.

To be considered for admission, applicants must meet the [criteria for admission to the Graduate School](#). Meeting this condition does not guarantee admission.

**Note**: Completion of this program entitles students to apply for Public Librarian certification from the North Carolina Public Librarian Certification Commission; in addition, students who hold North Carolina
"A" licensure and present passing scores on the specialty area PRAXIS/NTE are entitled to apply for 076 Media Coordinator Licensure from the North Carolina Department of Public Instruction. Students who do not hold a valid North Carolina teaching license will be required to take additional coursework and internship in order to seek 076 licensure.

**COE_LES_LSA_2013_5** Change the course description for **LSA 6190** to read as follows:

**LSA 6190. Developing and Managing District Resources (3).On Demand.** This course provides an opportunity for students to reflect critically on resource development and management. Emphasis is given to problems of practice, while considering the roles school personnel play within the operation of a school district. Students will learn about the human and managerial complexities related to the development and management of resources necessary for promoting effective educational organizations. The course will develop district office administrators, who are able to acquire the knowledge and develop the capacity to create high performing human relations (HR) teams, as well as to understand the HR function and its roles in organizational and individual development. Candidates will learn to apply theory to authentic problems and practices in school districts through research-based solutions. The course will employ a variety of pedagogical strategies including lectures, guest lectures from practicing administrators, individual and group assignments, various forms of Educational technology, case studies, simulations, authentic assessment, and class discussions.

Dr. Glenda Treadaway presented the proposals from the College of Fine and Applied Arts for the Department of Communication, the Department of Sustainable Development, the Department of Technology and Environmental Design, and the Department of Theatre and Dance.

Proposals from the Department of Communication were approved as follows: (EFFECTIVE: FALL 2014)

**FAA_COM_2013_14** Change the course description for COM 1600 to read as follows:

**COM 1600. Fundamentals of Electronic Media (3).F;S.**
This course provides an in-depth look at the industries in electronic media and gives a framework on which the BS in Communication, Electronic/Media Broadcasting major can build.

**FAA_COM_2013_15** Change the course number for COM 4316 to COM 2416 as follows: [DELETE COM 4316 and ADD COM 2416.]

**COM 2416. Video Production I (3).F;S.**
The course introduces the student to the basic techniques of producing single camera, non-fiction programs. Students will produce programs that fall within a variety of genres, including news, public affairs, documentary, essay/commentary, PSAs and promotion. The course examines both the technical and analytical aspects of the production process. Areas covered include concept and storyline development, treatments, scripting, planning, camera techniques, lighting, editing, and exposure to non-fiction styles and genres. Prerequisites: registration is restricted to students admitted to the B.S. degree in Communication, Electronic Media/Broadcasting.

- POS affected: 525A
- Courses affected: COM 4416

**FAA_COM_2013_16** Change the course title for **COM 3313. Social Responsibility in Electronic Media** to read as follows:

**COM 3313. Professional Ethics in Electronic Media (3).F;S.**

- POS affected: 525A

**FAA_COM_2013_17** Change the prerequisite statement for **COM 3316. Television Studio Production (3).F;S.** to read as follows:

- **Section IV Minor** – no change
- **Section V Free Electives** (taken to total 122 s.h. for the degree) 8-17; 2 s.h of free electives outside the major discipline are required.
  - Total s.h. for degree 122

FAA_SD_2013_2 Remove “Lecture three hours” from the following course descriptions:

- SD 3100. Principles of Agroecology (3).F;S.
- SD 3250. Livestock Production and Management (3).F.

FAA_SD_2013_3 Change the course number, description, and credit hours for SD 2600. Science for Sustainability to read as follows: [DELETE SD 2600 and ADD SD 2610]

**SD 2610. Science for Sustainability (3).F;S.**
This course is an introduction to the study of the natural sciences as they can be applied to the concepts of sustainability. The basic principles of science studied include: energy; matter; ecology; population growth; carrying capacity; decreasing biodiversity; resource depletion; climate change; and chemical pollution of air, water, and soils. (WRITING; SPEAKING; NUMERICAL DATA) (ND Prerequisite: passing the math placement test or successful completion of MAT 0010.)

Revise the program of study for the undergraduate minor in Sustainable Development (294/03.0103) to read as follows:
- Change the total hours for the minor to 18-20 s.h.
- Under section 1. Required, change SD 2600 to SD 2610 and change the semester hours to 9
Revise the programs of study for the Bachelor of Science in Sustainable Development (604*/03.0103) with a concentration in Agroecology and Sustainable Agriculture (604B) and a concentration in Community, Regional and Global Development (604C) to read as follows:

Proposals from the Department of Technology and Environmental Design – Building Sciences were approved as follows:  (EFFECTIVE: FALL 2014)

FAA_TED_BS_2013_01 Change the course description for TEC 2718. Building Mechanical Systems from lecture-based to a 2 hour lecture, 2 hour laboratory. Course description to read as follows:

**TEC 2718. Building Mechanical Systems (3). F;S.**
This course introduces students to the design and installation of the mechanical systems in buildings - water supply and waste (plumbing);
electrical; and heating, ventilation and air conditioning (HVAC). The course combines lectures on the theory, practice, drawing methods, and building codes related to these systems with hands-on procedures. Lecture two hours, laboratory two hours.

FAA_TED_BS_2013_02 Change the course description and prerequisite statement for TEC 3738. Statics and Strength of Structures. Course will change from lecture-based to a 2 hour lecture, 2 hour laboratory. Course description to read as follows:

**TEC 3738. Statics and Strength of Structures (3).F;S.**
This course utilizes a practical approach to introduce students to the principles and physical concepts of statics and strength of materials related to construction. Statics is the study of bodies and forces in equilibrium. The study of bridge types, trusses, and other structures will be integrated into the coursework in order to provide a practical framework for the subject matter. Lecture two hours, laboratory two hours. Prerequisites: MAT 1025, PHY 1103, TEC 1708, TEC 1728, TEC 2758, and TEC 3039.

FAA_TED_BS_2013_03 Change the course description and prerequisite statement for TEC 3748. Building Science. Course will change from lecture-based to a 2 hour lecture, 2 hour laboratory. Course description to read as follows:

**TEC 3748. Building Science (3).F;S.**
This course introduces students to the complex ways in which buildings interact with their environment. Topics may include indoor air quality, building durability, energy efficiency, and client comfort. Students will use building diagnostic equipment to test for house and duct leakage, indoor air quality, humidity, and air flow. The course also emphasizes interpreting and translating these findings into concise summaries as well as comprehensive written reports. Lecture two hours, laboratory two hours. Prerequisites: TEC 1708 and TEC 2718, MAT 1020 or higher, or permission of the instructor. (WRITING; CROSS-DISCIPLINARY; NUMERICAL DATA) (ND Prerequisite: passing the math placement test or successful completion of MAT 0010.)

FAA_TED_BS_2013_04 Change the prerequisite statement for TEC 4768. Construction Administration to read as follows:

FAA_TED_BS_2013_05 Change the course number for TEC 2708 to TEC 1708 as follows: [DELETE TEC 2708 and ADD TEC 1708.]

**TEC 1708. Construction Technology and Building Codes (3).F;S.**
This course provides students with an introduction to the construction process, building materials and designs, management issues, and building codes. Emphasis is given to contemporary trends in residential and commercial construction, with considerable focus on different building types, energy efficient and high performance buildings and building codes. The course includes a lab in which students are introduced to construction management techniques and participate in hands-on construction activities.

Proposals from the Department of Technology and Environmental Design – Commercial Photography were approved as follows: (EFFECTIVE: FALL 2014)

FAA_TED_CP_2013_01 Course Addition:

**TEC 4302. Commercial Photographic Production (3).F;S.**

This 3 hour studio class will acquaint the student with the fundamentals of commercial production in advertising and high end editorial photography. As photographers grow in their capabilities and experience, they will be expected to work as part of a creative team that can produce work of the highest quality. By shifting roles on each of three projects, students will become familiar with the functions of the Art Director, the Producer and the Commercial Photographer as they work in collaboration on complex creative projects.

Prerequisite: TEC 3722 and either TEC 4412 or TEC 4422.

Revise the undergraduate bulletin to reflect changes in the requirements for the Bachelor of Science in Commercial Photography (583A/50.0406) to read as follows:

**Sophomore Portfolio Review for Commercial Photography Students:**

Students majoring in Commercial Photography must successfully complete a sophomore portfolio review before registering for 3000- and 4000-level Commercial Photography coursework.

A. Commercial Photography majors must complete or be currently enrolled in the following courses before submitting a sophomore portfolio: TEC 1022, 2022, 2032 and 2052.

B. After the return from mid-term break each semester a call for portfolios will be made. Eligible students may submit a portfolio of 10-12 images representing their best work, including one series of 3-4 related images. The portfolio must also contain a brief (less than one page) statement which states the student’s interests and goals for their future in commercial photography.

The images of the portfolio will be judged by a pool of Commercial Photography faculty based on the following criteria:

1. Effective use of design
2. Compositional strength
3. Effective use of camera controls
4. Lighting control or understanding of lighting factors.

C. Students who do not pass the sophomore portfolio review will be required to pursue one or more of these steps:
   1. Consult with a Commercial Photography faculty member to determine a plan for improvement of student’s work
   2. Take action identified in the consultation to build skills and knowledge, thus creating work for resubmission
   3. Resubmit a portfolio in the same or subsequent semester.

Proposals from the Department of Technology and Environmental Design – Graphic Arts and Imaging Technology were approved as follows: (EFFECTIVE: FALL 2014)

FAA_TED_GAIT_2013_01 Revise the program of study for the Bachelor of Science in Graphic Arts and Imaging Technology (572A/50.0409) changing it from a degree without a concentration to a degree with three concentrations (572*/50.0409). (See programs of study at the end of the minutes.)

Add three concentrations:
Print Production (572B)
Packaging Production (572C)
Cross Media Production (572D)

FAA_TED_GAIT_2013_02 Course Addition:
GRA 1520. Foundations of Packaging Production (3).S.
This course is an introduction to packaging production covering materials, processes, and technology used in package development. Specific topics may include package structure layout and design, materials and manufacturing, printing processes, and converting/finishing processes for packaging. Emphasis will be placed on understanding the complete production process from design to finished package. Lecture two hours, laboratory two hours.

FAA_TED_GAIT_2013_03 Course Addition:
GRA 3518. Sustainability for Print Production (3).F.
This course investigates print manufacturing practices, and the steps required to 1) implement manufacturing standards that address environmental, health and safety certification; 2) development and implementation of sustainable management systems (SMS); 3) best practices management within the printing industry, and 4) all the foregoing within the 3P model of planet, people and profit. Lecture two hours, laboratory two hours. Prerequisite: GRA 2012.

FAA_TED_GAIT_2013_04 Course Addition:
GRA 2522. Electronic Document Design II (3).F;S.
This course is a continuation of GRA 1022 as a study of page layout software technology specific to the graphic communications industry. Project-based assignments using Adobe Creative Cloud tools to address workflow requirements are examined through the production of electronic documents such as booklets, brochures, posters and newsletters. Other topics include image editing for page layouts, digital imposition, color models and modes, desktop color separation preparation, color profile management, masking, image tonal analysis, file preparation and conversions. Lecture two hours, laboratory two hours. Prerequisite: GRA 1022.

FAA_TED_GAIT_2013_05 Course Addition:
GRA 4524. Advanced Web Development for Graphic Communications (3).S.
This course is a continuation of GRA 3512, Web Development for Graphic Communications. Emphasis will be placed on creating multimedia Web pages, interactive Web forms, and mobile Web sites. This course will also integrate several different programs allowing students to create effective and attractive websites. By the end of this course, students should be able to design advanced web sites that utilize complex interactivity. Lecture two hours, laboratory two hours. Prerequisite: GRA 3512.
Change the course title, description, and add a prerequisite statement for GRA 3102. Electronic Imaging to read as follows:

**GRA 3102. Cross Media Production (3).F;S.**
This course is a study of new technologies applicable in the production of digital content for print production or access from the World Wide Web. The study of Adobe Creative Cloud products in the application of project based assignments, including the study of materials, equipment, health and safety, concepts of text/image input, conversion and output devices that are practiced in the graphic communications industry. Lecture two hours, laboratory two hours. Prerequisite: GRA 2522.

POS affected: 250, 250Q, 572, 600A

Change the course title, description, and semester offering for GRA 4512/ GRA 5512. Advanced Cross Media Production to read as follows:

**GRA 4512. Advanced Cross Media Production (3).S.**
This course is an advanced treatment of studies begun in the GRA 3102 course, and incorporates new technologies applicable in the production of digital content for print production, the World Wide Web, mobile device platforms and other applicable new forms of graphic communication. Students will learn and be required to demonstrate ability to apply electronic document designs across a variety of graphic communication platforms. Lecture two hours, laboratory two hours. Prerequisite: GRA 3102 (NUMERICAL DATA; COMPUTER designator) (ND Prerequisite: passing the math placement test or successful completion of MAT 0010) [Dual-listed with GRA 5512.] Dual-listed courses require senior standing; juniors may enroll with permission of the department.

**GRA 5512. Advanced Cross Media Production (3).S.**
This course is an advanced treatment of studies begun in the GRA 3102 course, and incorporates new technologies applicable in the production of digital content for print production, the World Wide Web, mobile device platforms and other applicable new forms of graphic communication. Students will learn and be required to demonstrate ability to apply electronic document designs across a variety of graphic communication platforms. Lecture two hours, laboratory two hours. Prerequisite: GRA 3102 (Electronic Imaging). [Dual-listed with GRA 4512.]

FAA_TED_INT_2013_3  Change the course description for INT 3005 to read as follows:

**INT 3005. Interior Design Studio IV (3).F.**
Intermediate-level studio, focusing on global design in commercial environments. Course provides application of human environmental studies, multi-cultural studies, advanced graphics, space planning, lighting and green design. Typical projects may include hospitality facilities (hotels, resorts, restaurants), branding and consumer studies, and retail. Prerequisite: INT 2110. Studio six hours. (SPEAKING)

FAA_TED_INT_2013_4  Change the course description for INT 3105 to read as follows:

**INT 3105. Interior Design Studio V (3).S.**
An advanced studio which focuses on problem-solving skills related to collaborative design. The course further develops concept writing, process drawing, space planning, design development, detailing, and green design understanding. Typical projects may include medium-scale healthcare and socially conscious design/service-based learning for non-profits. Prerequisite: INT 3005. Studio six hours.

FAA_TED_INT_2013_5  Change the course description for INT 4100 to read as follows:

**INT 4100. Interior Design Studio VI (4).F.**
Advanced studio. May include programming and client issues, complex topics with professional documentation, focus on green design and advanced problem solving. Typical projects may include competition scenarios from varied sources. Prerequisite: INT 3105. Studio eight hours.

FAA_TED_INT_2013_6  Change the course description for INT 1001 to read as follows:

**INT 1001. Visual Literacy I (3).F.**
Introduces fundamentals of 2D graphic communication through a variety of design projects. Investigates principles and elements of design through problem-solving methods. Introduces composition, lettering, layout, line quality, graphic representation and color theory. Lecture one hour, studio four hours.

FAA_TED_INT_2013_7  Revise the program of study for the Bachelor of Science in Interior Design (550A/50.0408) to read as follows:
- Under Advance Coursework section, change INT 4109 to INT 4108 and INT 4100 to INT 4101

**HS_CSD_2013-2014_3** Revise the catalog copy of the admission requirements to the Communication Sciences and Disorders program.

--- Undergraduate Bulletin 2014-2015 ---

Formal application for admission to the communication sciences and disorders program is required of all students. Admission is competitive and an interview is required if there are more applicants than can be admitted.

Minimum Admission Requirements: 45 semester hours completed with a minimum cumulative GPA of 3.0 at the time admission is offered, Speech Prerequisite Screening by the Communication Disorders Clinic, and completion of prerequisite courses

Prerequisite Courses (to be completed by the close of the semester of application with a minimum grade of B or 3.0 in each course; transfer equivalency will be accepted, including AP or University Placement): ENG 1000, ENG 2001, four semester hours of the general education science inquiry perspective requirement, CSD 2259 and CSD 2260.

*Note: Meeting the above requirements does not guarantee admission to the undergraduate degree program in communication sciences and disorders. The Department can only admit a limited number of students each Fall and Spring. Application closing dates are February 1 for Fall admission and October 1 for Spring admission. Final admission decisions will be made after semester grades are officially recorded. Students may apply for admission a maximum of three times.*

Additional information regarding the admission process is available at: [www.comdis.appstate.edu/undergraduate-admissions](http://www.comdis.appstate.edu/undergraduate-admissions)

Students interested in pursuing licensure and national certification in speech pathology by the American Speech-Language and Hearing Association must apply, be accepted and complete a Master of Science degree program in Speech-Language Pathology, such as the one offered by Appalachian State University.

The proposals from the Hayes School of Music were approved as follows: (EFFECTIVE: FALL 2014)

MUS_MM_2014_1 Revise the program of study for the Master in Music in Performance (558*/50.0903) to remove the required course MUS 5007 and add MUS 5170 as a required course (see MM_MUS_2014_2 below).

Remove MUS 5007 from the Graduate Bulletin in Fall 2015.

MM_MUS_2014_2 Course Addition:
MUS 5170. Professional and Scholarly Practices for Musicians (2).F.
Students will be introduced to a variety of skills essential for the performing musician, including introduction to research methods and resources, communication in the lecture-recital/lecture-demonstration format to equip students with the skills of adapting research findings into clear, concise, and comprehensible formats, and entrepreneurship. Lecture two hours.

MM_MUS_2014_3 Course Addition:
MUS 5160. Conducting Seminar/(1). F/S.
The Conducting Seminar is a weekly opportunity for the graduate conducting students to share the recordings of their rehearsals, share ideas for improvement, and learn from each other and from the instructor. Students will also present several masterworks in seminar, sharing their approaches to score marking, preparation, study, and analysis. These works may later be performed by the graduate students within various ensembles as deemed appropriate by the faculty. May be repeated for a total credit of four semester hours.

MM_MUS_2014_4 Add a concentration in Conducting (680B) to the Master of Music in Performance (680*/50.0903).

This minor is intended to provide an option for acquiring courses for those exploring professional education that could contribute to achieving NC licensure for students enrolled in a program that does not offer a major in teacher education. Specifically, the Teacher Education program’s Professional Education Core courses plus 6 credit hours of electives will be used to fulfill the requirements of a minor. This minor is offered only for programs that do not have a major in teacher education.

This minor will develop the skills, knowledge and dispositions of students seeking a minor in education to complete the course and early field experience requirements that will assist them in becoming future teachers. This minor alone does not result in an endorsement for professional licensure through the North Carolina Department of Public Instruction without the fulfillment of all additional licensure requirements including student teaching.
